**ADARI LOHITH**

has successfully completed the online, non-credit Specialization

# GCP Professional Architect

This Certificate is earned after successfully completing 6 courses on various topics in GCP Professional Architect specialization. The learner gains proficiency in cloud computing fundamentals and Google Cloud Platform services, enabling them to design, develop, and manage robust, secure, and scalable applications. With expertise in computing, storage, networking, security, database management, big data processing, and DevOps workflows on GCP, the learner is prepared for advanced architecting roles.
